

HEBAU High Precision Sprayers

1. HEBAU "Multi"-Sprayer

for HEBAU high performance mould release agents

The sprayer's configuration and components are designed to ensure best spray coverage and low consumption rates if used with [HEBAU mould release agents](#), solidly built and suitable for everyday use.

and for HEBAU CSE® Deactivators

Based on the solid set-up, the same sprayer is also suitable for [HEBAU CSE® Deactivators](#)' application. Just change the spray tip, according to the composition and viscosity of the CSE® version.

2. HEBAU "MICROGEL®"-Sprayer

This low pressure sprayer is suitable for spraying liquids of low PH-value, such as [MICROGEL®](#). The sprayer's set-up allows to spray very accurately avoiding spray mists. The components are acid resistant and all parts are easy to handle and clean. Suitable for MICROGEL® versions "spezial", "forte" & "V02".

Name of sprayer	HEBAU "Multi"-Sprayer
Max. filling volume	5 L
Max. operating pressure	6 bar
Materials	Stainless steel body, PVC hose, brass spraying lance
Weight	4.3 Kg approx.
Spray tips Please specify accordingly in your purchase order	<p>For use with HEBAU's demoulding agents: High precision flat fan 8001E</p> <p>For use with HEBAU's CSE® "pro": PVDF flat fan 90-02 ¹⁾</p> <p>For use with HEBAU's CSE® "nova", "solotop" & "multitop": Hollow cone 1.1 mm ²⁾</p>
TÜV/ GS-approved The sprayer comes with	<p>Yes</p> <ul style="list-style-type: none"> • Viton seals • Safety valve • Manometer • Shoulder strap • Hand pump • Pressure valve • Easy-to-fill covering • Holder for lance • Spare parts compartment • Porthole for checking filling level • Plenty more accessories and spare parts available
